

SWIMMING CARNIVAL

Student Briefing

Health & Physical Education | Year 7-10 | Victorian Curriculum F-10 Version 2.0

Safety rules, emergency procedures, what to bring,
and what is expected of you on carnival day.
Read before the carnival. Keep this sheet with you.
VCHPEP125 | VCHPEP129 | VCHPEM146

000**EMERGENCY NUMBER**

If someone is in danger — call 000 immediately. State your location, school name, and what has happened. Stay on the line.

CARNIVAL DATE & VENUE	YOUR TEACHER	YOUR CLASS
-----------------------	--------------	------------

THE RULES — Everyone Must Know These

RULE 1 STAY IN YOUR LANE Never cross into another lane during a race or warm-up.	RULE 2 FEET FIRST — ALWAYS No diving unless specifically instructed by a teacher or official.	RULE 3 NO RUNNING Walk on all pool surrounds at all times. Wet pool decks cause serious falls.
RULE 4 NO PUSHING Never push anyone into the pool. No horseplay near the water's edge.	RULE 5 SWIM WHEN TOLD Only enter the water when directed by a teacher, official, or lifeguard.	RULE 6 STAY VISIBLE Do not leave the pool area without telling your teacher.

**DISTRESS SIGNAL — If you need help in the water**

Raise ONE arm straight up and hold it there. Do not wave both arms. One arm held up is the recognised signal — lifeguards and teachers will see it immediately.

What to Bring

■ Towel and change of clothes	■ Medical information (if applicable)
■ Goggles (recommended)	■ Any prescribed medication — notify your teacher
■ Swimwear (school policy)	■ Water bottle — stay hydrated even at a pool
■ Sunscreen (if outdoor venue)	■ Hat and t-shirt for when you are not swimming
■ Snack or lunch	■ Completed permission form if required

Know These Locations on Arrival**Before anything else — locate the first aid station and the AED.**

You might never need them. But if you do, you will not have time to find them. 30 seconds of looking around when you arrive could make the difference.

FIRST AID STATION	AED (DEFIBRILLATOR) LOCATION
TOILETS AND CHANGE ROOMS	EMERGENCY EXIT
YOUR CLASS ASSEMBLY POINT	DRINKING WATER

Medical Conditions & Medications

If you have a medical condition — your teacher must know BEFORE the carnival.

- Notify your teacher before the day — not on the day — if you have asthma, epilepsy, a heart condition, or anything that affects your ability to swim safely.
- Bring prescribed medications (asthma inhaler, EpiPen) and hand them to the first aid officer on arrival.
- If you feel unwell at any point — tell a teacher or the first aid officer immediately. Do NOT get in the water.
- Never swim if you feel dizzy, unwell, or unusually tired.

If You See Someone in Trouble

Do NOT jump in after them.

Even if you are a confident swimmer — a panicking person in the water can pull you under. Untrained water rescuers become victims.

YES — DO THIS

- + Call for help loudly — shout LIFEGUARD or HELP and point at the person
- + Call 000, or direct someone: "You — call 000 now."
- + Throw something — rope, kickboard, pool noodle, towel, anything that floats
- + Talk to them — keep them calm and focused on you from the edge

NO — DO NOT DO THIS

- x Jump in if you are not trained in water rescue
- x Assume someone else will act — name someone and give them a task
- x Freeze — the first seconds matter. Act immediately.
- x Lean out to grab them by hand — you risk being pulled in

DRS ABCD — If Someone Is Unresponsive

D	R	S	A	B	C	D
DANGER	RESPONSE	SEND 000	AIRWAY	BREATHING	CPR	DEFIB
Is it safe for you?	Tap & call their name	Call for help NOW	Tilt head back gently	Look, listen, feel	30 pushes + 2 breaths	AED if available

CPR:

30 chest compressions then 2 rescue breaths. Push HARD — 5-6 cm deep — at 100-120 bpm. Do not stop until emergency services arrive.

Secondary drowning:

Anyone submerged — even briefly, even if they feel fine — MUST be assessed by the first aid officer. Symptoms can appear hours later.

Behaviour & Sportsmanship

GOOD BEHAVIOUR

- Cheer for your house and your school — including other competitors
- Respect officials' decisions without argument
- Support classmates who are nervous or less confident swimmers
- Look after each other near the water — tell a teacher if anyone seems unwell
- Represent your school with the character you would want remembered

REMOVAL FROM CARNIVAL

- Running on pool surrounds
- Pushing or shoving anyone near the water
- Entering the water without permission
- Deliberately interfering with another swimmer
- Leaving the venue without permission

Student Acknowledgement

I have read this briefing. I understand the safety rules, the emergency procedures, and what is expected of me at the swimming carnival. I know to call 000 in an emergency and to alert a teacher or first aid officer if I see someone in difficulty.
