

WATER SAFETY

Self-Assessment & Reflection

Health & Physical Education | Year 7-8 | Victorian Curriculum F-10 Version 2.0

Rate your confidence across all unit content areas.

Reflect on what you have learned. Set one goal.

VCHPEP125 | VCHPEP126 | VCHPEP129 | VCHPEP130 | VCHPEM146

TEACHER

How to use this sheet:

For each statement, tick the box that best shows your confidence. Be honest — there are no wrong answers. Honest self-assessment helps you improve.

STUDENT NAME	CLASS	DATE
--------------	-------	------

■ Beach & Water Safety Knowledge [VCHPEP125 · VCHPEP130]

Not sure | Starting | Getting there | Got this

Name and explain all five LSV SwimSafe rules correctly.	■ ■ ■ ■
Explain what red and yellow flags mean and where to swim.	■ ■ ■ ■
Explain what a single red flag means and what to do.	■ ■ ■ ■
Explain what an orange windsock flag means.	■ ■ ■ ■
Describe what a rip current looks like and how to identify one.	■ ■ ■ ■
Explain the correct escape technique if caught in a rip current.	■ ■ ■ ■
List at least three hidden hazards at inland waterways.	■ ■ ■ ■
Explain why swimming at an unpatrolled location is significantly more dangerous.	■ ■ ■ ■

■ Emergency Response [VCHPEP129 · VCHPEM146]

Not sure | Starting | Getting there | Got this

Name all seven steps of DRS ABCD in the correct order.	■ ■ ■ ■
Explain what to do at each step of DRS ABCD in plain language.	■ ■ ■ ■
Explain what to tell the operator when calling 000.	■ ■ ■ ■
Explain the CPR ratio (30:2) and why rate and depth matter.	■ ■ ■ ■
Explain "Throw, Don't Go" and why untrained rescuers should not enter the water.	■ ■ ■ ■
Describe at least three things that can be thrown to help someone in the water.	■ ■ ■ ■
Explain what secondary drowning is and why any submersion needs medical review.	■ ■ ■ ■

■ Decision Making & Safe Behaviour [VCHPEP125 · VCHPEP129]

Not sure | Starting | Getting there | Got this

Give a reason why peer pressure leads to dangerous decisions near water.	■ ■ ■ ■
Describe how to say no to a dare to swim somewhere unsafe.	■ ■ ■ ■
Explain what the bystander effect is and how to overcome it.	■ ■ ■ ■
Describe what I would do if I saw someone in distress in the water.	■ ■ ■ ■
Name one specific action I will take to stay safer near water.	■ ■ ■ ■

■ Practical Skills [VCHPEM146]	Not sure Starting Getting there Got this
Perform a survival float for at least 2 minutes.	■ ■ ■ ■
Tread water for at least 2 minutes without touching the floor or sides.	■ ■ ■ ■
Swim at least 50 metres continuously using any stroke.	■ ■ ■ ■
Demonstrate the correct distress signal (raising one arm).	■ ■ ■ ■
Describe how to enter cold water safely (feet first, controlled).	■ ■ ■ ■

Reflection Questions

1. What is the most important thing you learned in this unit?

Think about what really surprised you or what you will actually remember and use.

2. What is one thing you are still unsure about?

Being honest about this is a sign of strong learning — not weakness.

3. Describe a real-life situation where you might use what you learned.

Think about your own life — where do you go near water? What could happen?

4. Has this unit changed how you think about water safety? Explain.

It is okay to say not really — but try to explain why.

5. What would you tell a friend who had never done this unit?

The most important thing they would need to know.

My Goal — After This Unit

One thing I want to keep working on:

One action I will take outside school:

One person I will talk to about water safety:
